

2022 Virtual Summer School

The 2022 "Resilient Cities" International Summer School Online is organized by Beijing University of Civil Engineering and Architecture (BUCEA) and International Society for Photogrammetry and Remote Sensing.

The program will cover architecture and planning, civil engineering, environmental engineering, construction management, and robotics engineering, etc. To popularize the frontier knowledge and development trend of related disciplines. It aims to provide a platform for students and young scholars to communicate academically and culturally through a series of high-level professional lectures, academic discussions and cultural experiences. What we strive to achieve:

Aims and Objectives

• Global Engagement

present the superior courses of BUCEA to the world and introduce the advanced courses from abroad to BUCEA at the same time.

• Well-designed courses and teachers

academic lectures are offered based on the leading majors in BUCEA to create a wise and advanced academic atmosphere.

• Innovative education model

world-class teaching methods to improve online participation and research ability for interdisciplinary study.

Agenda

Note: the time in the agenda is Beijing Time (UTC+8) , 8 hours ahead of GMT.

No.	Institution	Subject	Lecturer
July 25 (Monday)			
Moderator: Prof. Jie Jiang, Secretary General of ISPRS			
14:30-15:00		Welcome Addresses	Prof. Aiqun Li
			Prof. Jie Jiang
			Guest From ISPRS
15:00-16:00	Bahria University, Pakistan	Hybrid nanofluids– Inception and Development	Prof. Muhammad Ramzan
16:00-17:00	ISPRS	Lecture II	Professor from ISPRS
20:00-21:00	Politecnico Di Milano, Italy	Lecture III	Prof. Luca Maria Francesco Fabris
21:00-22:00	ISPRS	Lecture IV	Professor from ISPRS
July 26 (Tuesday)			
Moderator: Prof. Tao Chen, Vice Dean, International Development Research Institute, BUCEA			
15:00-17:00	Auburn University, USA	Lecture V	Prof. Junshan Liu
18:00-20:00	ISPRS	Lecture VI	Professor from ISPRS
20:00-22:00	BUCEA, China	Lecture VII	Prof. Mengyixin Li
July 27 (Wednesday)			
Moderator: Xing Huang, Deputy Director, International Development Research Institute, BUCEA			
15:00-17:00	ISPRS	Lecture VIII	Professor from ISPRS
20:00-22:00	BUCEA, China	Lecture IX	Prof. Xiaowei Shan
July 28 (Thursday)			
Moderator: Xing Huang, Deputy Director, International Development Research Institute, BUCEA			
15:00-17:00	ISPRS	Lecture X	Professor from ISPRS
20:00-21:00	The University of Adelaide, Australia	Lecture XI	Professor from U of A
21:00-22:00	ISPRS	Lecture XII	Professor from ISPRS
July 29 (Friday)			
Moderator: Prof. Tao Chen, Vice Dean, International Development Research Institute, BUCEA			
15:00-17:00		Group Discussion & Closing Ceremony

People in Charge: Mr. HUANG Xing / Mr. QI Ji

Address: No.1 Zhanlan Road, Xicheng District, Beijing, P.R.China, 100044

2022 International Summer School Online

Resilient Cities

Days: July 25th -29th , 2022

Institutions

Beijing University of Civil Engineering and Architecture
International Society for Photogrammetry and Remote Sensing

Domains

- Architecture and Planning
- Civil Engineering
- Environmental Science and Engineering
- Construction Management
- Robotics Engineering

BUCEA International Summer School Profile

As the one and only architectural university in Beijing, the Beijing University of Civil Engineering and Architecture (BUCEA) was jointly sponsored by the Peoples Government of Beijing Municipality and the Ministry of Housing and Urban-Rural Development of China, BUCEA is home to over 70,000 outstanding alumni.

BUCEA has set up the Belt and Road International Urban Innovation Center and 7 international innovation cooperation platforms, working in partnership with 97 universities and research institutions across 43 countries and regions for pragmatic academic exchanges and joint research. The university has proposed the initiative of establishing the BRAUIC, Belt and Road Architectural University International Consortium, committed to building it into a world-famous specialized international university alliance. Thousands of Chinese and international students have benefited from Sino-foreign Cooperatively-running Programs and programs for international students.

From 2016 to 2021, BUCEA has successfully held five International Summer schools. A total of more than 900 Chinese and foreign teachers and students from more than 20 domestic and foreign universities gathered together to study.

BUCEA is dedicated to the mission of cultivating talents with morals and the positioning of a top-notch featured university, building itself into a top-notch, inclusive and innovative university in China with world-wide recognition and great emphasis on architectural education
